PROJECTS

EduSure — MERN Campus Collaboration Platform *edusure-five.vercel.app* • *200+ live users*
- Built and deployed a MERN platform with a React interface where students upload and download admin-verified notes and PYQs, earn Edu-Coins for sharing, and use a community hub and academic calendar

Developer Portfolio *kundan-portfolio-khaki.vercel.app*
- Designed and built a single-page portfolio with a glassmorphism theme and particle animations using HTML, CSS, JavaScript, and TypeScript

QualifyAI — AI Interview Screening Platform *qualifyai.duckdns.org*
- Building a SaaS platform for AI voice-based candidate screening and interview coaching in a 4-member team, using Next.js, Node.js/Express, PostgreSQL, and Supabase

OneHealth *openhealth-pi.vercel.app*
- Built a healthcare platform for hospital price transparency, real-time ICU/bed availability, and AI-based bill and report analysis in a 4-member team within 36 hours

AI Resume Parser & Candidate Matching System *Python, Groq API, Pydantic*
- Extracts skills, education, experience, and projects from PDF/DOCX resumes, then uses an LLM to score each candidate against a job description and rank them
